Quality Variety Versatility Style

It's your life. It's your choice

Your home says a lot about you. It shows how you like to live your life, it reveals your likes and dislikes and it reflects your own personal style. That's why making the right choice of doors, windows and conservatories is so important. And it's why the PROFILE 22 PVC-U system, which lies at the heart of our products, gives you such a wide variety of stylish options to choose from.

From classic traditional to clean modern lines, you'll find what you need from us. Our extensive range meets the full requirements of the Government's latest energy efficiency regulations and what's more, because all our designs are completely flexible, you can create the look and feel that matches your home and your aspirations.

PRO

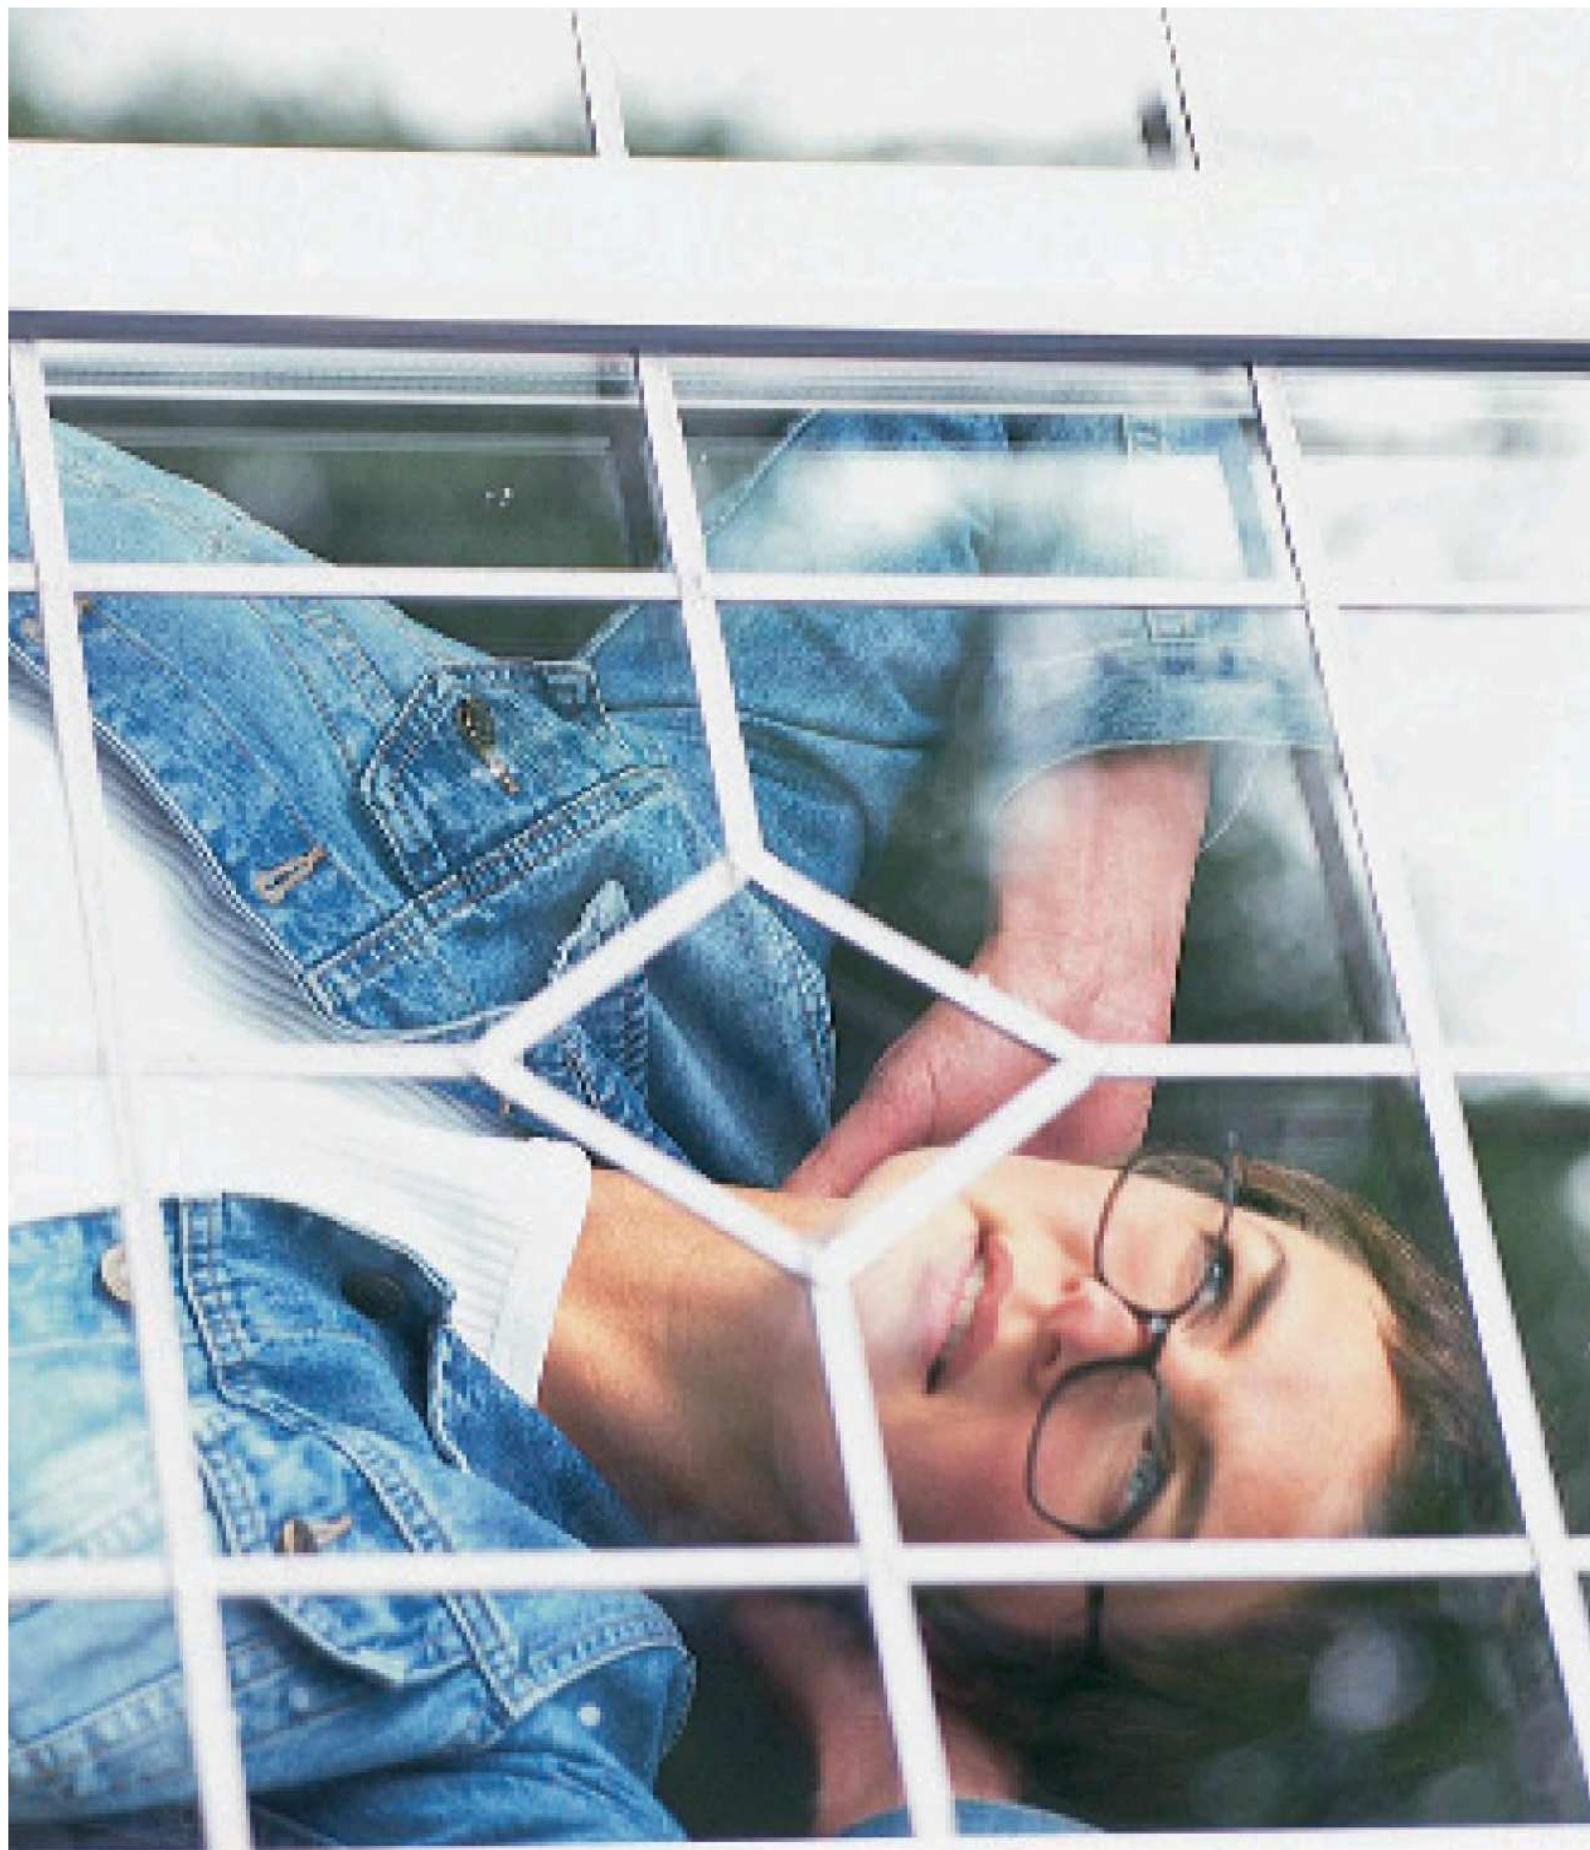

Quality redefined

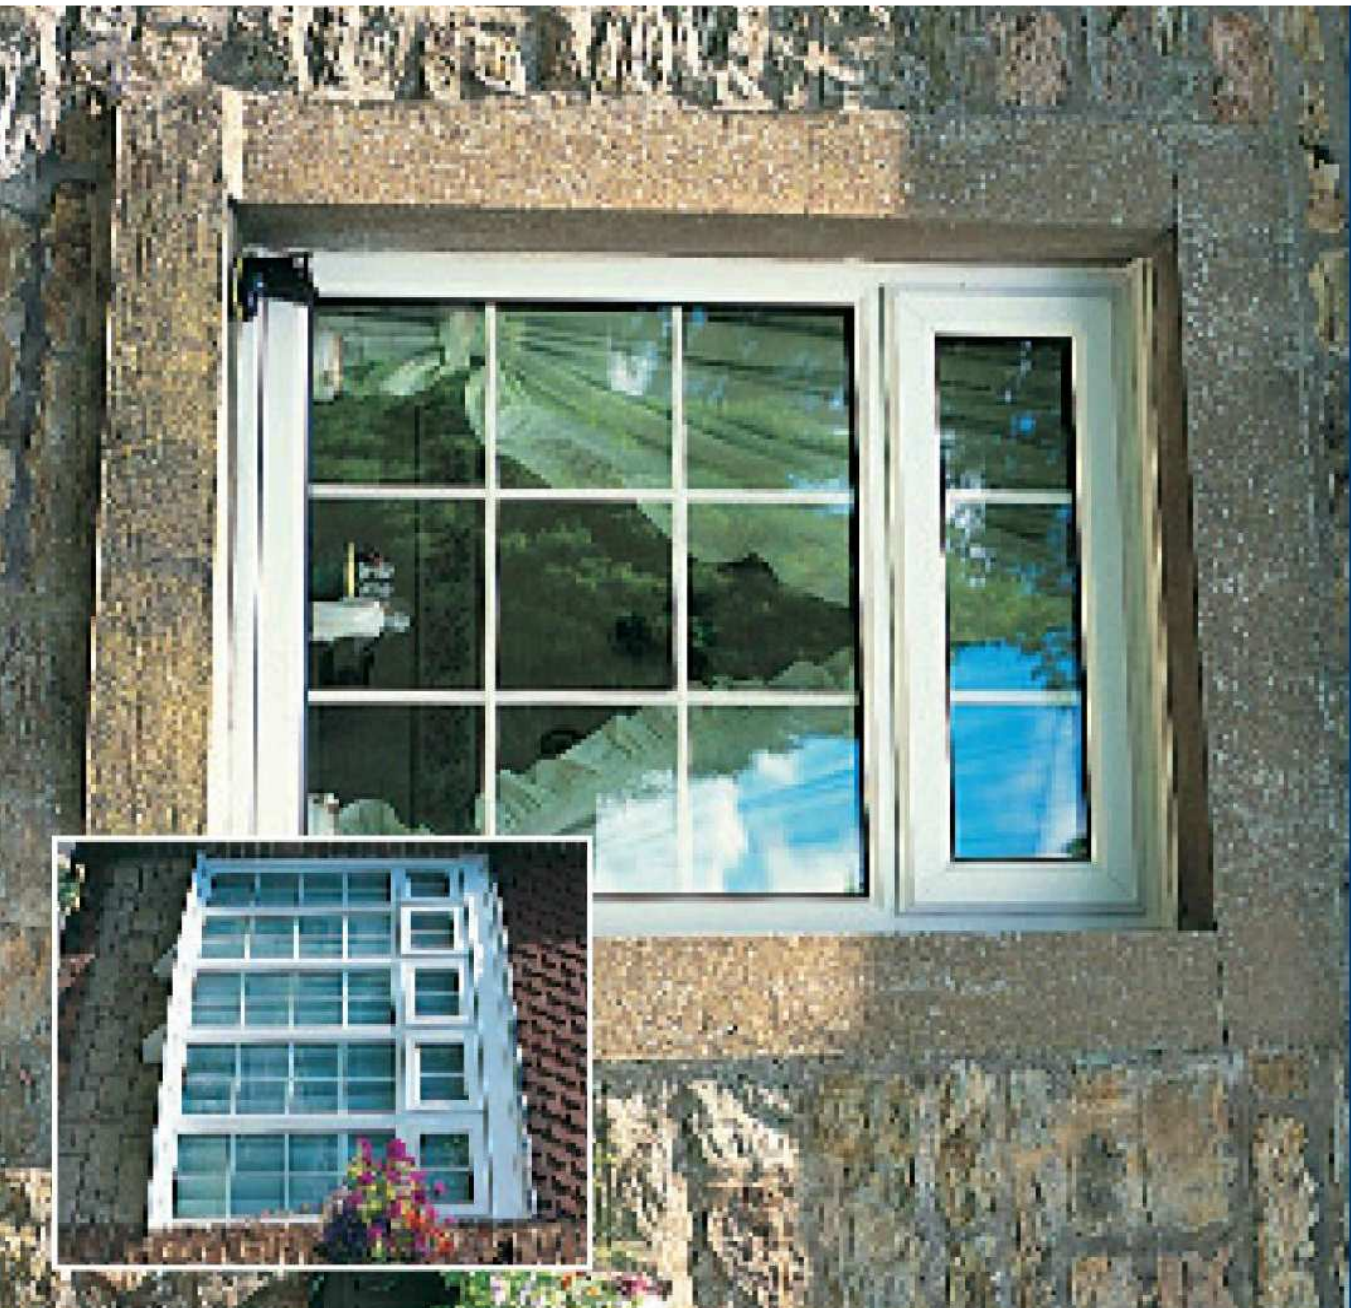

For us it's all about combining style and substance. Creating products that meet your individual needs and that have the strength and security you would expect from a high calibre company.

Just look at our windows and you'll see the difference: slim stylish lines with elegant beading, tilt and turn or casement openings with patterned or diamond leading all surrounded with dark or light woodgrain or brilliant white frame finishes

But delve below the surface and you'll find the substance: steel reinforced construction, energy efficient design and the low maintenance that has made the **PROFILE 22** range so popular. Add to that the system's BSI Kitemark and approval from the British Board of Agreement and Scotland's MacData Institute and you know you have a quality product.

Rooms with new views

It takes vision to choose the finest replacement windows. With minimal effort, your rooms can be brighter, lighter and fresher places to be and our highly trained installers will use their experience and local knowledge to help you make the right choices.

Should you choose traditional casement windows or the more flexible tilt and turn option? What about beading - the trim around your windows? Which of the wide range of PROFILE 22 styles will make the most of the look of your home? And how about colour? You can choose from light or dark woodgrain frame finishes, brilliant white or a combination of one inside and the other outside.

Then there's the glazing, security and locking systems and even the handles. The options seem endless but we're here to help you make the right choices for your home.

Open your mind

What's the first thing you see when you enter any home? The door. It could be a traditional front door, a stylish patio door or the open invitation offered by French doors. First impressions count - and with a PROFILE 22 door, you can be sure that they'll always be positive.

To start with there's a huge variety of PROFILE 22 doors to choose from - from detailed classical designs to contemporary simplicity. Then there are numerous finishes and a vast range of clear, coloured, patterned, decorated and leaded glazing plus enough hardware options to add a touch of individuality to any door.

Next comes security. The rigid, multi-chambered construction of all PROFILE 22 doors is reinforced with steel and multi-point locking systems to keep out unwanted guests. Weather tight seals, insulated frames plus a selection of double-glazing options exclude draughts and all the other elements.

Find your own space

Conservatories are all about creating space.

Enabling you to add a bright and refreshing room to your home that could act as a new living room, dining room or play room - it's completely up to you.

The challenge is to choose the right conservatory - and that means using **PROFILE 22**.

Our designers understand the importance of delivering a solution that complements your home. They'll create a look and feel that is both light, airy and spacious as well as strong, safe and secure. Their goal? A conservatory that has the complete structural integrity to work 365 days a year.

As you can see there are an almost limitless number of options available. But whichever design route you choose, you can rest assured that your conservatory has the strength of steel reinforcement, multi-chamber construction and high quality hardware, locking systems and glazing.

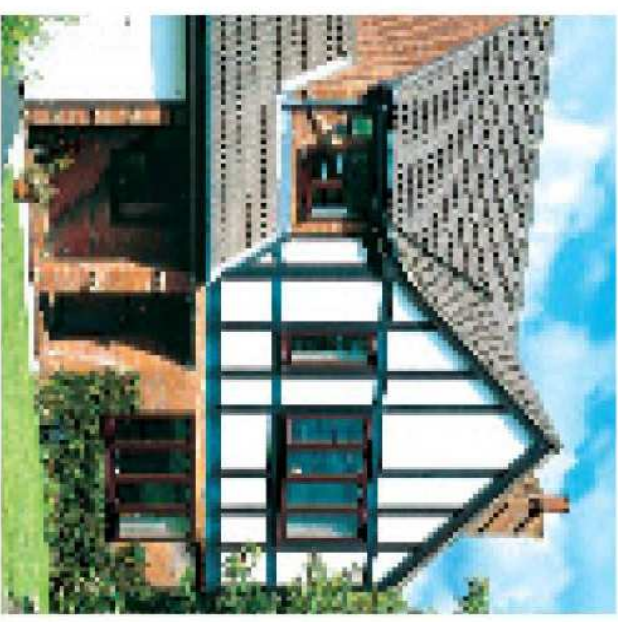

Secure your home

Whether you are interested in windows, doors or conservatories, we deliver a wide range of options to help you improve the looks and security of your home. From the fundamental choice of colour - with any combination of light or dark woodgrain or white inside or outside - to the style of beading and leading, you are free to create the look you want.

Take glazing. There's total flexibility in terms of size, shape and finish. It can be plain or decorative with diamond leading.

Georgian bars or intricately patterned designs. And with durable PROFILE 22 hardware, you have the choice of brass or smooth aluminium to match your designs.

As for security, there are espagnolette and shoot bolts for windows plus die-cast PROFILE 22 window locks with a tamper proof mechanism that's designed to beat intruders and protect inquisitive children.

Your clear advantage

In this brochure, you've seen what our existing customers have achieved with PROFILE 22. Now imagine what you can do. With help and advice from our fully trained installers, you'll be free to create a new look for your home - one that reflects who you are.

But that's just the start. By choosing our products, you'll be investing in the long-term value of your property. Our high quality manufacturing standards, use of best quality components and rigorous quality checks mean that your home will benefit from PROFILE 22 home improvements for many years to come and because they meet the Government's latest energy efficiency regulations, your home will be more comfortable and cheaper to run.

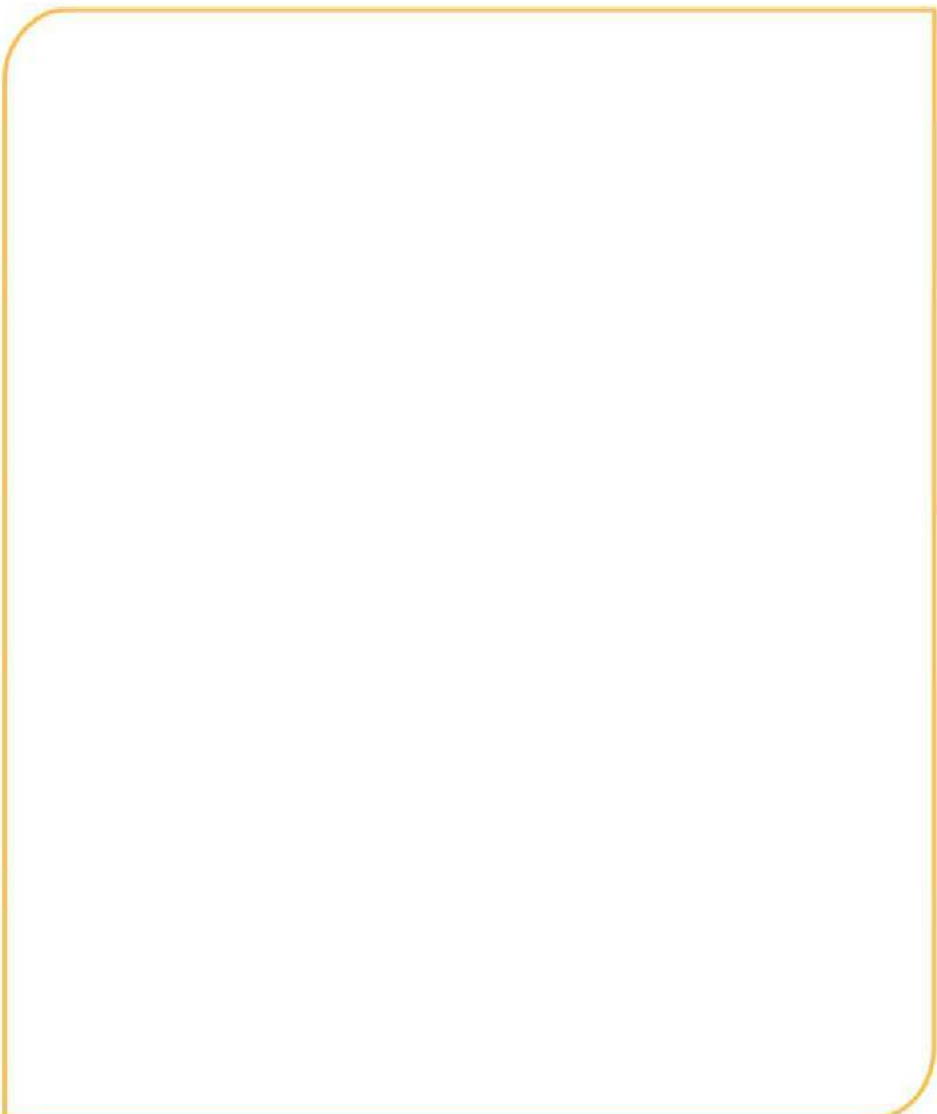

As you'd expect, our team will work quickly and efficiently removing old windows and doors and installing your new PROFILE 22 units. Our goal is to leave your home as clean and tidy as we found it.

So the advantage is yours for the taking.
